

JOURNAL OF SURVEY STATISTICS AND METHODOLOGY

VOLUME 10 / NUMBER 1 / FEBRUARY 2022

Survey Statistics

Nonparametric Mass Imputation for Data Integration
Sixia Chen, Shu Yang, and Jae Kwang Kim 1

Targeting Key Survey Variables at the Unit Nonresponse
Treatment Stage
David Haziza, Sixia Chen, and Yimeng Gao 25

Design- and Model-Based Approaches to Small-Area Estimation in a
Low- and Middle-Income Country Context: Comparisons and
Recommendations
John Paige, Geir-Arne Fuglstad, Andrea Riebler, and Jon Wakefield 50

Match Bias or Nonignorable Nonresponse? Improved Imputation and
Administrative Data in the CPS ASEC
Charles Hokayem, Trivellore Raghunathan, and Jonathan Rothbaum 81

Parametric Bootstrap Confidence Intervals for the Multivariate
Fay–Herriot Model
Takumi Saegusa, Shonosuke Sugasawa, and Partha Lahiri 115

Survey Methodology

Responsive and Adaptive Survey Design: Use of Bias Propensity
During Data Collection to Reduce Nonresponse Bias
Andy Peytchev, Daniel Pratt, and Michael Duprey 131

Building on a Sequential Mixed-Mode Research Design in the
Monitoring the Future Study
*Megan E. Patrick, Mick P. Couper, Bohyun Joy Jang, Virginia Laetz,
John E. Schulenberg, Patrick M. O'Malley, Jerald Bachman, and
Lloyd D. Johnston* 149

Risk of Nonresponse Bias and the Length of the Field Period in a Mixed-Mode General Population Panel <i>Bella Struminskaya and Tobias Gummer</i>	161
--	-----

Determined by Mode? Representation and Measurement Effects in a Dual-Mode Statewide Survey <i>Enrijeta Shino, Michael D. Martinez, and Michael Binder</i>	183
---	-----

Applications

Projecting Local Survey Response in a Changing Demographic Landscape: A Case Study of the Census in New York City <i>Annette Jacoby, Arun Peter Lobo, and Joseph J. Salvo</i>	203
---	-----

Using American Community Survey Data to Improve Estimates from Smaller U.S. Surveys Through Bivariate Small Area Estimation Models <i>Carolina Franco and William R. Bell</i>	225
---	-----

Corrigendum

Corrigendum to: Using American Community Survey Data to Improve Estimates from Smaller U.S. Surveys Through Bivariate Small Area Estimation Models <i>Carolina Franco and William R. Bell</i>	248
--	-----
