PUBLICACIONES

a) Libro: "Patología Digestiva Infantil" 1994 ISBN: 84-8086-119-3.

b) 26 capítulos de libros

c) 92 publicaciones en revistas, siendo las más relevantes:

- Recombinant alfa2-interferon treatment in children with chronic hepatitis B. Lancet, 1988, 1:250.

- Serological and histological follow-up of chronic hepatitis B infection. Arch Dis Child, 1989, 64:1165-1169.

- Interferon antibodies in patients with chronic HBV infection treated with recombinant interferon. J Hepatol 1989, 8:351-357.

- A controlled trial of recombinant interferon-alpha in Caucasian children with chronic hepatitis B. Digestion 1990, 45:26-23.

- Hepatitis B virus DNA patterns in the liver of children with chronic hepatitis B. J Med Virol 1990, 31:195-199.

- Autoimmune chronic hepatitis type 2 manifested during interferon therapy in children. J. Hepatol, 1991, 12:265-266.

- Prospective, randomized controlled trial of interferon-alpha in children

with chronic hepatitis B. *Hepatology* 1991, 13:1035-1039.

- Treatment with gamma interferon versus alpha and gamma interferon in children with chronic hepatitis B. *Pediatrics*, 1992; 90:254-258.

- Treatment of children with chronic hepatitis C with recombinant alpha interferon: A pilot study. *Hepatology* 1992; 16:882-885.

- Persistence of hepatitis B virus DNA after reduction of viral replication in serum and liver. *J Med Virol* 1992; 38:11-15.

- Increase in triglycerides during alpha interferon treatment of chronic viral hepatitis. *J Hepatol.* 1992; 16:384-385.

- Chronic hepatitis B in children. Natural history and treatment. *J Hepatol* 1993; 17 S3:64-66.

- Levamisole and interferon in children with chronic hepatitis. *Hepatology* 1993; 18: 264-269.

- Interferon treatment in children with chronic hepatitis B. *J Hepatol* 1994; 12S:1-3.

- Hepatitis C virus genotypes in serum and liver of children with chronic hepatitis C. *Pediatric Res* 1995; 38:618-620.

- Factors predictive of response to interferon therapy in children with chronic hepatitis B. *J. Hepathol* 1995; 22:540-544.

- Interferon treatment in children with chronic hepatitis B. *J Hepatol* 1995; S22:49-51.

- Distribution of the predominant virus precore variants in hepatitis B e antigen positive children and their effect on treatment response. *Pediatr Res* 1996; 39:980-984.

- Detection of hepatitis GB virus type C RNA in serum and liver from children with chronic viral hepatitis B and C. *Hepatology* 1997; 25:1258-1260.

- Pilot Interferon beta trial in children with chronic hepatitis B who had previously non responded to Interferon alpha therapy. *Pediatrics* 1997; 99:222-225.

- Hepatitis C virus infection in children. *J Hepatol.* 1999; 31 S1:124-129.

- Sequence variation of hepatitis B virus precore-core open reading

frame isolated from serum and liver of children with chronic hepatitis B before and after interferon treatment. J. Med. Virol. 1999; 58:208-214.

- Clinical and histological outcome after hepatitis B e antigen to antibody seroconversion in children with chronic hepatitis B. Hepatology. 1999; 29:572-575.
